AMENDMENT

Box Non-Fee Amendment  
Commissioner for Patents  
Washington, DC 20231

In response to the Office Action dated December 11, 2002 (Paper No. 9),  
please amend the above-identified U.S. patent application as follows:

In the Claims

Please rewrite claim 14 as:

14. (Amended) The apparatus of claim 13, wherein the transconductance controller comprises:

AI  
a bias current selector operative to select values for first bias current and a second  
bias current associated with a selected gain setting, and

a bias current generator operative to generate a first current having the selected value  
for the first bias current value and apply said first current to the first bias current supply and to  
generate a second current having the selected value for the second bias current value and apply  
second current to the second bias current supply.
